

How we pierced the corporate veil, alter ego and “judgment proofing” of every executive, VC and boss at Google

By Sanderson Investigations

For a major anti-corruption lawsuit effort we had to find the hidden money that corrupt billionaires had spent billions of dollars to hide. How hard was it to peel the skins off of Google’s onion? Thanks to modern law enforcement and intelligence technology, it was not hard at all.

The fluency and practice of piercing the corporate veil & alter ego liability shields of political manipulation bosses such as George Soros, Eric Schmidt, Larry Page, Elon Musk and their colleagues, has become increasingly important in recent years due to changes in the law and business cycles.

As more small clients need to collect on debts and judgments, it is increasingly critical for practitioners to be fluent with the cutting-edge techniques and best tools to pierce & dissolve the corporate veil, as well as determine alter ego liability. The growing number of bankruptcies, foreclosures, and judgments has dramatically increased the need for forensic experts proficient in the science of effective judgment enforcement and asset recovery against the Silicon Mafia collection of corrupt California tech companies. It is critical for attorneys to understand the best strategies to suck dry the corporate assets in judgments for creditors. In our videos we detail the piercing of the Google corporate veil, navigating complex determinations on corporate liability, strategies involving legal alter ego, and breaking open both corporate & personal liability. We use tools that not only include, but exceed, the capabilities of XKEYSCORE, Palantir, Taleo, Bitcoin Trace, PayPal Trace, VISA Trace, D&B Insider, Gust-Scan, and hundreds of other executive asset tracking and intelligence engines.
